Ultrasonic Cleaning Station - Positive & negative pressure waves create "cleaning bubbles" that explode with great energy at high temperatures lifting contaminants from items. No harsh chemicals used.  
Deionized Water Hand Rinse Station - No mineral deposits in the water. Clean rinse with no spotting or residue.  
Air Dryer - Speeds drying time. Less handling  
Finishing and Boxing Station - Hand-wrapped for protection. Boxes labeled with contents list and numbered. Picture documentation on each item in every box recorded by box number  
Hand Wash Delicate Station - Items that cannot be put into the ultrasonic machine.  
Electronic Cleaning Station - Turn table for ease of cleaning without lifting items. Drying Chamber speeds up drying time and reduces exposure to moisture.
